Race Starts (both USAC and UCI): Standard UCI protocol will be followed, with the Chief Referee responsible for starting the race. The start will be as follows: A notice will be given at one minute to start and 30 seconds to start. The start signal (gunshot or whistle) may be given at any point after this last warning. Start Lights will be used for the World Cup. Other races will commence in waves at 30-second to 1-minute intervals (referees discretion). LAPPED RIDERS

For UCI Elite events, lapped riders will be pulled according to UCI regulations. Lapped riders will be pulled in accordance with a time percentage (80%) slower than the lead rider. This is to ensure the safety of the lead riders and also ensure that lapped riders do not inadvertently affect the race outcome by hindering either the lead rider or those in pursuit. Riders that are pulled MUST leave the course when and where instructed.

For USAC events, officials will be instructed NOT to pull lapped riders. However, slower riders MUST give way to riders overtaking them. If safety or obstructive issues arise because a lapped rider fails to give way, the lapped rider may be pulled at the discretion of the Chief Referee.

WASH AREAS

THE MUC-OFF BIKE WASH

The Muc-Off Bike Wash is in the interior of the course across from Registration . It's a large wash area that is clearly marked. Please try their amazing products as you clean and lube your bike for your next event.

PIT BIKE WASH

The Bike Wash in the SHIMANO Pit Area is for IN RACE use only!!! Only the mechanics in the pit area washing DURING a race can use the pit wash. Riders/mechanics may NOT use the pit bike wash before or after their event, only DURING their event. If you violate this rule, your rider may have their number pulled for the remainder of the weekend.

PRO TEAM AREA BIKE WASH

An additional pro team area bike wash is on the western side of the pro team parking area just south of Anti-Doping. This area is for Pro Teams Only and is also sponsored by our friends at Muc-Off

SHOWERS FOR PARTICIPANTS

Bikes To You Showers will be in the Northwest corner of the Pro Team parking area all weekend. Please hose yourself off at the bike wash sites before you shower in the portable showers. Do not use the showers as your hose down area.

RESULTS

Results will be posted at registration and compiled by One2 Go Event Services. All results will be considered final unless a protest is received by the Chief Judge within 15 minutes of posting. Online results will be posted as soon as possible. Preregistered riders will get results emailed from One2Go if your email address is included with your pre-registration. Press releases will be emailed for local, national, and international media in the UCI races.

ANTI-DOPING

The organizers and staff of the Jingle Cross are strong advocates for the missions of the USADA and WADA. All USAC and UCI riders regardless of category are subject to UCI/USADA Anti-Doping Examination Regulations and all competitors and team personnel must abide by these regulations. Any riders with a non-negative test result (following any adjudication process) will forfeit any prizes won at Jingle Cross. Jingle Cross, Inc., USAC, and the UCI officials have no role in the USADA and WADA directives. Therefore, riders must check at the Anti-doping location ON THEIR OWN to see if they have been selected for testing. Testing will be inside the Fairgrounds Administration building adjacent to the START line (see map). REGARDLESS OF YOUR PLACE OR YOUR EVENT, IT IS THE RESPONSIBILITY OF THE RIDER TO CHECK WITH DOPING CONTROL FOLLOWING THEIR RACE. The list of riders required to report for doping control will be posted PRIOR to the finish of each race. All USAC and UCI riders must follow UCI procedures for doping control. Any rider selected for testing but who fails to present themselves for testing could be considered a positive result. These regulations are entirely handled by the USADA and/or WADA and Jingle Cross, Inc. has no jurisdiction or say in this matter.

AWARDS

UCI C1 AND C2: PODIUM, GREEN ROOM, AND FLASH INTERVIEW AREA

All UCI men's and women's races are televised. Top finishers and selected athletes must IMMEDIATELY proceed to the FLASH INTERVIEW area. On camera interviews will be conducted by the GCN and Eurosport for the C1 and C2 events. A multitude of media will interview for the World Cup. A green room for the UCI Pro riders will be provided directly behind the podium for the UCI events. Top 3 athletes from both the men's and women's UCI events should report to the Green Room immediately after the flash interview for changing and then report to the podium for awards. Towels and water will be provided. UCI riders shall remain in the podium area briefly after the ceremony for interviews. Riders should then report to the press conference and doping control as required.

U23 PODIUM FOR JINGLE CROSS

A U23 Podium for both the men's and women's UCI C1 and C2 races will be held for recognition and photo purposes only. There are no awards delivered during the c1 and c2 podium. There will be U23 podium for the Telenet UCI World Cup Women but there will not be one for the men.

USAC AMATEUR AND UCI 17-18

The top 3 riders from the Junior 17-18 men and women UCI races on Friday and Saturday and all USAC races will have their podiums approximately 1 hour after their race has concluded. A schedule will be followed as close as possible but results are determined by the officials and a mandatory protest period must be allowed before results are final. Please be patient with this process. For the USAC categories, our TOP 3 Overall winners from the point's competition must present themselves at the podium following their finish on Sunday, September 15th. Please wear team gear for the overall podium. DO NOT EXPECT TO INCLUDE YOUR BIKE ON THE PODIUM FOR PHOTOS. It is disrespectful to other riders and teams and will not be tolerated.

PRESS CONFERENCE

No press conferences are planned for any day due to pandemic considerations. The flash interview will serve as the primary interview opportunity for the media.

MEDIA

Online application for media credentials is available on our website or emailing media@jinglecross.com. ADDENDUM: JINGLE GX GRAVEL RACE GUIDE

Welcome to the Jingle GX!

This is the inaugural Jingle GX race event, and the construction of this event has been designed to both join with the events of the Jingle Cross weekend as well as compete with the very best gravel races on the domestic race calendar. The Rock Lobster (aka Jeff Barnes) and Rick Hopson have scouted out the very best that the Johnson County and Washington County routes have to offer, and have arranged a course that will both challenge and reward the very best gravel enthusiasts, yet allow spirited participation for those less intent on personal destruction. The course is folded into a square bounded by Hwy 218 on the east, State Hwy 1 on the north and west, and State Hwy 22 on the south, and incorporates a complex route of gravel, a bit of paved chip seal, and many (ok most) of the B roads in this region. There are actually two courses in play, depending on rain and moisture, a "dry" and a "wet" route. The "wet" route avoids the B roads, is about 12 miles shorter, and will be used if the rain in the preceding week would make the route too muddy for cycling. What is "too muddy"? Well, it is largely my call, but I will use the "dry route" if the course can be ridden, without taking more than a brief footer, by a cyclist of "average" skill and driven by a vehicle (albeit with 4WD).

RACE DESCRIPTION:

This event is a race, full gas, and will be formatted as such. Having said that, the support and provision of the event will allow for participation of riders who are interested in just riding-it-out, without all the froth and foam at the front of the race. The event will be conducted in "fondo-format". This means: open roads, no lead or follow cars, and riders are expected to follow rules-of-the-road as if they are on a training or group ride. This pertains to adhering to centerline rules, attending to assorted road signage, and following misc. right-of-way at turns and in towns. Riders are expected to be self-supported, meaning that team and non-neutral (aside from other cyclists on the course) support will not be allowed between stops, and riders are expected to make it between stops, and overall, to the finish without help. Having said that, there will be supported and well-stocked stops roughly every 15 miles along the 68 mile course. Each stop will have medical, mechanical, nutritional, (and perhaps emotional) support services, and these are open to registered riders. This, riders should provision their bikes and managed their rides appropriately, with regards to water, nutrition, and their ability to attend to simple repairs on the road. Related, a carried cell phone might allow a visit with a race official, sag wagon, or minister (we have several on duty for this event). The race will start in front of the Jo. Co. Fairgrounds on 218 heading south. There will be combined race groups with a lead-out car and neutral support heading south and then across 218 for about 400 yards, then the race proper will begin on Old 218/Vine on pavement when the lead-out car pulls aside. The race will finish on Poweshiek in front of the Family Church, at the T intersection between Poweshiek and Vine, on gravel, about 2 miles from the Jingle Cross course on the Jo. Co. Fairgrounds. There is a nice downhill recovery cruise from the finish line to the fairgrounds, where, at a later time, finish results will be posted and awards attended to.

The course will be posted on GPX, and cue cards will be available, and finally, the entire route will be extensively marked with arrows and signage in a fashion designed to allow a rider without cue cards or GPX to easily make their way around from start to finish. (Having said that, the course will be marked in the 18 hours prior to the event, and sign/arrow pilfering might be possible.)

You will note that the course has innumerable folds and twists, and a simple inspection of the map (see below) will find many opportunities for riders to either cut the course or amputate 5-10 miles of the route with a simple wrong turn. Beware of this by either accident or strategy, as each of these spots will be patrolled with course marshals and/or chip mats that are specifically designed to disallow this. If you feel the need to take the straight route home, through either spiritual or physical exhaustion, then please do so, but you will be recorded as a DNF.

JINGLE GX RACE RULES:

- no non-neutral support between stops (except from other participants)
- riders must attend to the posted rules-of-the-road
- riders are allowed to work with riders of other groups as they might be encountered on the road.
- no cutting the course if you want an official result
- be alert for cross roads, the busiest of which will be either attended by a marshal or marked with special signage
- neutral riding with a car lead-out for the first 400 yards, then race is on
- start at 0800 in front of the fairgrounds
- numbers left side; chip timing; numbers on the front of bikes as well
- rest-stations:
 - o #1 Riverside at 15 miles. This station will close at 10:30 AM
 - o #2 Kalona Mennonite Church. This stop will close at 13:00 PM
 - o #3 Grout Cemetery (Corner of Kansas and 540th St). This stop will close at 15:00.
 - o #4 Finish Line (in front of the Family Church on Poweshiek @ Vine).

RIDER RECOMMENDATIONS:

- bring tools and equipment for a tire change and simple repairs
- water and food to at least get you between stops
- maybe a gu pack?
- a bike appropriate for this course... a gravel or CX bike is best. A mountain bike would cover it, but struggle to stay up. Fat bikes always welcome (bring a light).
- Consider a cell phone
- A Garmin or equivalent might be useful
